Experience

Samsung Electronics – Brand Ambassador.....01/23 - Present

- Testing whilst demonstrating Samsung's line of Electronics.
- Aiding with and queries and pushing sales leads on products available.
- Problem-Solving any customer issues faced with Samsung products and services
- Hitting and Surpassing targets sales to reach

Retail / Additional Experience.....10/17 - 01/23

I have other retail experience in retail stores since 2022. This has exposed to the customers face to face and has sharpened by customer service skills, communication skills, and so much more along the line. I had previously worked as a DJ Technical Assistant in which I took upon the role of organizing, structuring and piecing technical equipment. Within this role, I had been exposed to both software and hardware which had aided towards being able to understand and grasp technical problems for the future.

Education

Technological University Dublin BSc Computing and Information Technology

Expected Graduation, 2025

General Skills.....Problem-Solving, communication skills, Excellent Adaptation, Team management, Sales, Customer Service skills, Analytic and Critical thinking skills and Efficient Multi-tasking.

Technical Skills..... Java, Python, HTML, CSS, JavaScript, Microsoft Office, React, MySQL, Google Analytics.

Projects

ANIUZU APPAREL

This is the landing page for a clothing brand named, "Aniuzu Apparel".

JORDAN ANIUZU

This is a page designed and styled to express more about myself, my skills as well as getting in touch for future enquiries.

Extra-Curriculars

Weather Application

Above is a web application which outputs the Wind speed as well as the Humidity of any given city above through the use of a weather API.

Calculator Application

Above is an application which acts as a personal calculator made by using JavaScript and CSS.

QR Code Generator

Above is an application which can generate a fully functional Quick Response code when given a text or link done through the use of a QR API.

- Partnered with Samsung in the Bloom Festival 2023
